7. DISCUSSION AGENDA

7.1. Quality and Safety Agenda Presentation (Presenters – Joshua Lenchus, Interim Chief Medical Officer, Barry Gallison, VP, Risk and Quality Management)

7.1.1. Readmission Reduction Program

- Changes to CMS Quality Programs in the current fiscal year
 - Value Based Purchasing (VBP)
 - Health Acquired Condition
 - Readmissions

Dr. Lenchus advised the Centers for Medicare & Medicaid Services (CMS) Hospital Readmission Reduction Program (HRRP) a VBP program focuses primarily on several conditions and/or procedures specific to avoidable readmission. Assessment of the District was equal to the national average on the following four (4) diagnostic categories:

- Heart Failure
- Chronic Obstructive Pulmonary Disease
- Pneumonia
- Acute Myocardial Infraction

Dr. Lenchus reviewed the Districts costs of Medicare readmission for the FY'20 actual penalty in addition to the FY'21 potential 3% max cost of re-admissions.

CMS ceased judging each hospital against each other, however hospitals are currently stratified into five (5) peer groups (quintiles 1-5) with similar proportions of patients that are dually eligible for Medicare and full-benefit Medicaid.

Dr. Lenchus shared the Districts following three (3) peer groups:

- Region 4
 - BHMC: 18 Florida Hospitals; Penalties ranged from 2.07% to 0.04%; BHMC was at 0.62%; 8 were higher and 7 were lower
- Region 2
 - BHCS & BHIP: 45 Florida Hospitals; Penalties ranged from 3% to 0%; BHIP was at 0.63%; BHCS was at 0.5%; 33 were higher and 9 were lower

*Noted, a correction to BHCS data in presentation deck should reflect 0.5% for FY'19, as 0.73% is reflective for FY'18.

- Region 3
 - BHN: 24 Florida Hospitals; Penalties ranged from 2.07% to 0.04%; BHN was at 0.27%; 20 were higher and 3 were lower
