

TIP SHEET

Overview of Enhancements

New look and user experience Redesigned navigation menu for HRT and FSM applications that have been consolidated for ease of use.

Mobile Smart Panel the Smart Panel toolbar is now presented as a drawer for more optimal screen real estate use. It creates additional space on the main user interface, enhancing the overall user experience

Enhanced Report Catalog Create reports using new Field Picker tool. Users can easily create reports from an existing screen by selecting any field shown without knowledge of technical business classes.
