Schedule Overview:

Our schedule reflects a 4 + 1 system. Every fifth week, each resident will have a "clinic" week. These weeks will be staggered across the residency so that 20% of the residency will be on their "+ 1 week" at any given time. This model assures that residents do not attend to inpatient and outpatient responsibilities simultaneously. During the ward rotation one four week block is designated as night float and it is split in 2 alternate weeks blocks.

Residents will have the opportunity for elective rotations in the following internal medicine subspecialties: Cardiology, Hematology, Oncology, Nephrology, Gastroenterology, Infectious Diseases, Endocrinology, Pulmonary Disease, and Rheumatology,

Residents will have the opportunity for experience in the non-internal medicine sub-specialties: Psychiatry, Allergy/Immunology, Dermatology, Medical Ophthalmology, Office Gynecology, Otolaryngology, Non-Operative Orthopedics, Palliative Medicine, Addiction Medicine, Sleep Medicine, and Rehabilitation Medicine, Cardiovascular Intensive Care Unit, Electrophysiology, Radiation/Oncology, Wound Care, Sports Medicine, Anesthesia and Procedures.

PGY 1: May take up to 15 days of vacation per year

PGY 2-3 : May take 20 days of vacation

Residents are not permitted to take vacation on the Wards and ICU months.
